

Serial No.: 08/963,368  
Filed: November 3, 1997

Please amend the application as follows:

IN THE CLAIMS:

Please amend the claims as follows:

- 71
16. (Twice Amended) A molecular library of retroviruses comprising retroviral constructs, each construct comprising a randomized nucleic acid encoding a randomized peptide, wherein said library comprises at least  $10^4$  different randomized nucleic acids.
- 72
21. (Twice Amended) A cellular library of mammalian cells containing a molecular library of retroviral constructs, each construct comprising a randomized nucleic acid encoding a randomized peptide, wherein said molecular library comprises at least  $10^4$  different randomized nucleic acids.
